Time: 9:00 AM

WHAT IS BRICS?

The BRICS summit is an annual international relations conference attended by the heads of state or heads of government of the five member states.

WHO IS HOSTING THE BRICS 2024 SUMMIT?

Russia took the rotating presidency of the BRICS group in 2024.

MAIN OF THE BRICS?

1. The ultimate goal of BRICS is to bring the US dollar down from the world's reserve currency and replace it with local currencies, thereby creating a multipolar financial world where developing countries will have limited connection to the U.S. dollar.
2. The Brics group wants emerging economies to have more influence in international politics.
3. The group was designed to bring together the world's most important developing countries, to challenge the political and economic power of the wealthier nations of North America and Western Europe.

WHAT ARE THE MAIN OBJECTIVES OF BRICS?

- The BRICS seeks to deepen, broaden and intensify cooperation within the grouping and among the individual countries for more sustainable, equitable and mutually beneficial development.
- BRICS takes into consideration each member's growth, development and poverty objectives to ensure relations are built on the respective country's economic strengths and to avoid competition where possible.
- BRICS is emerging as a new and promising political-diplomatic entity with diverse objectives, far beyond the original objective of reforming global financial institutions.

WHO ARE THE MEMBERS?

Brazil, Russia, India and China are the founding members. South Africa, the smallest member in terms of economic clout and population, was the first beneficiary of an expansion of the bloc in 2010 when the grouping became known as BRICS. Together the countries account for more than 40% of the world population and a quarter of the global economy.

WHICH NATIONS WANT TO JOIN BRICS AND WHY?

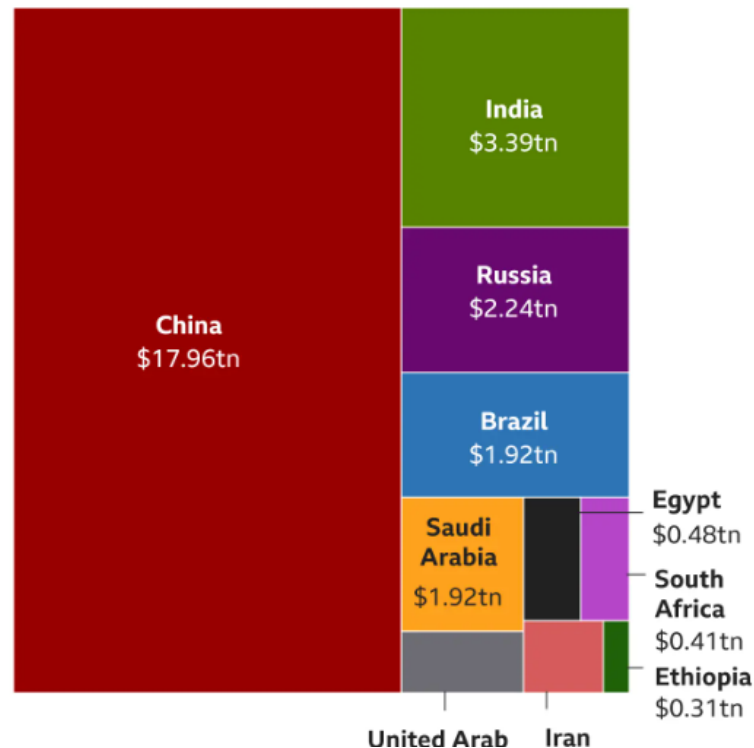

Over 40 countries have expressed interest in joining the BRICS forum, including major players such as Iran, Saudi Arabia, and the United Arab Emirates, as well as countries from Latin America, Africa, and Asia like Argentina, Algeria, Bolivia, Indonesia, Egypt, Ethiopia, Cuba, the Democratic Republic of Congo, Comoros, Gabon, and Kazakhstan. Additionally, Belarus, an Eastern European country, is seeking to join the BRICS alliance in 2024. Belarusian President Alexander Lukashenko stated that his country is eager to participate in the bloc's integration processes, aiming to maintain balance and economic stability. Malaysia has recently submitted its application to join BRICS, with both China and Russia expressing keen interest in approving it. **Thereby, according to the decision approved at the 15th BRICS summit last August, now includes 10 states. Egypt, Iran, the United Arab Emirates, Saudi Arabia, and Ethiopia have joined BRICS as new full members.** (BBC NEWS)

WHY DOES BRICS MATTER?

1. Brics countries include major world powers, such as China and Russia, and countries which are influential on their continent, such as South Africa and Brazil.
2. The expanded group has a combined population of about 3.5 billion, or 45% of the world's inhabitants.
3. Combined, members' economies are worth more than \$28.5tn - about 28% of the global economy.

Brics countries and their GDPs

GDP in trillions of US dollars

AIME OF MOSCOW BRICS AUGUST:

The 6th International Municipal BRICS (IMBRICS) Forum will take place in Moscow on 27–28 August 2024. This annual business event is aimed at integrating positive global experience in the technological, economic, and social development of municipal territories of the BRICS countries and their partners. The Forum is to be attended by representatives of 126 countries, 89 Russian regions and 500 cities – over 5000 people.

WHAT IS THE REASON BEHIND THE CHOICE OF KAZAN AS THE VENUE OF THE 2024 BRICS SUMMIT?

Kazan was chosen as the venue for the summit is no coincidence. All essentials are in place for the city to host a meeting of world leaders at a decent level. There is a well-developed transportation network, tourist infrastructure, and, in general, a comfortable modern urban environment.

BRICS OUTCOMES

The main U.S. sector to be affected if BRICS ditches the dollar is the banking and finance sector. Banks across America will be forced to take concrete measures to safeguard the prospects for the U.S. dollar. Moreover, new currency pairs could take center stage in the forex market adding more pressure on the U.S. dollar. Also, banks lend millions of dollars globally and the amount disbursed could be reduced considerably. Therefore, the U.S. dollar will experience a dent in the supply and demand mechanism and banks will take the first hit due to the BRICS de-dollarization initiatives.

The main U.S. sector to be affected if BRICS ditches the dollar is the banking and finance sector. Banks across America will be forced to take concrete measures to safeguard the prospects for the U.S. dollar. Moreover, new currency pairs could take center stage in the forex market adding more pressure on the U.S. dollar

LATEST NEWS:

This week, Russia has surprisingly shifted its digital asset perspective. Indeed, the country passed a bill allowing international trade to be settled in crypto. Moreover, it works alongside Moscow's development of its very own digital ruble. The nation expects such projects to become a vital economic reality. The digital ruble's pilot stage is set to begin on August 15th, following President Vladimir Putin's signing the currency into law last year. They aren't the only country taking such action. China and India are enacting similar policies.

10. Coworking Start Hub
11. Kalibre Coworking

THE RUSSIAN APPLICATIONS REQUIRED FOR THE COMPANY INCLUDE THE FOLLOWING:

Vk: It is a Russian online social media and social networking service based in Saint Petersburg. VK is available in multiple languages but it is predominantly used by Russian speakers. VK users can message each other publicly or privately, edit these messages, create groups, public pages, and events; share and tag images, audio, and video; and play browser-based games.

As of August 2018, VK had at least 500 million accounts. As of November 2022, it was the sixth most popular website in Russia. The network was also popular in Ukraine until it was banned by the Verkhovna Rada in 2017.

According to Semrush, in 2024 VK is the 30th most visited website in the world.

Statista: And also, kootaj company needs to purchase a subscription through Statista.com to access a wider range of data.
